

SPECIAL EVENTS CENTER

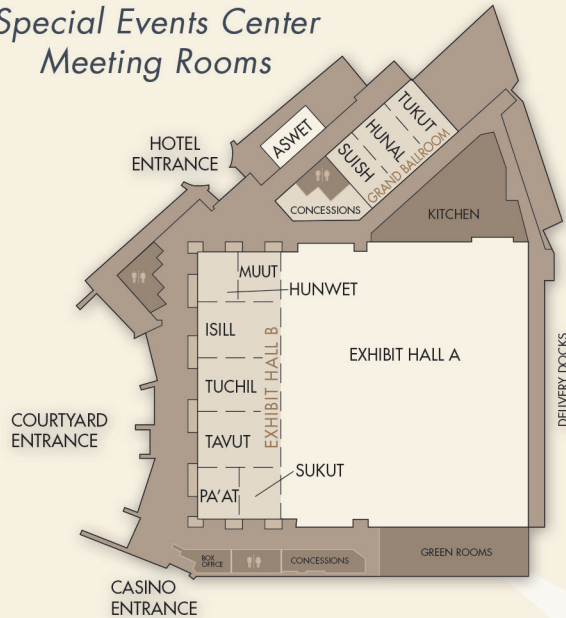

SETTING FOR SUCCESS

The Fantasy Springs Special Events Center sets a new standard for group functions, conventions and concerts in the Palm Springs Valley. From private meetings to large scale exhibits and conventions, this facility is designed to host events that seat up to 3,700+ people, yet can be reconfigured to handle multiple smaller functions at the same time. Constructed by the Howard S. Wright Company, builders of the Space Needle in Seattle, Washington, the Special Events Center can accommodate just about any event. For large groups and conventions, concession stands are located on both sides of the main Exhibit Hall. Ballrooms and a Boardroom are available for smaller functions.
